WTS Scores with Consultancy Excellence

Wexler Technical Solutions, Inc. is a growing integration, consulting and engineering firm that specializes in federal IT solutions. As a government service provider, we work with senior leadership to improve the quality of public technology and business.

**PEOPLE MAKE
THE DIFFERENCE**

**PEOPLE MAKE
THE DIFFERENCE**

WTS knows that expertise in consulting contributes to the growth and success of business and technology. We provide that expertise by fostering the creativity and talent of individuals who offer the experience, precision, and intellect to ensure the success of our clients and partners.

Leading Experts

WTS is an ensemble of experienced professionals from the highest ranks of technology and business. Our consultants average more than 10 years of professional experience. Most have advanced degrees and all have been groomed from exceptionally competitive technical consulting firms. WTS consultants are professional and trustworthy and have excellent communication skills, and leadership abilities.

Progressive Culture

WTS appreciates that today's professionals want working situations that allow them to define an environment in which they can flourish. In order to promote the effectiveness of all our consultants, WTS operates free of "company-first" policies and overbearing corporate culture.

Our consultants are able to regard their priorities and create a healthy work/life balance. By encouraging consultants to preserve their individualism, WTS has adopted an emerging industrial model that yields happier, more effective consultants and happier, more satisfied clients.

Collective Knowledge

By leveraging the strength and efficiency of internal networking, WTS consultants access the informational power of an entire consultancy. Our experts are encouraged to confer with colleagues to ensure that clients are given access to the experience and methodologies of the entire organization. At WTS, our experts understand the need to institutionalize technical and professional knowledge—a strategy that enriches client engagements.
